

OUR PROJECTS

WOODSIDE PLUTO LNG HOUSING PROJECT

Woodside

Location

Karratha, Western Australia

Project Type

Housing Development

Project Value

Approximately \$100 million

Programme

July 2008 – September 2009

Services Provided

Full project management services

Project Description

Coffey Projects were engaged by Woodside Burrup Pty Ltd to provide project management services, including superintendency, for the delivery of 63 new build and 55 transportable houses in Karratha.

The accommodation is to house the clients' senior management staff working on the Pluto LNG Plant.

The client's project priorities were safety, delivery, cost and quality with particular emphasis on safety. Safety considerations included working in extremely hot conditions in an area prone to cyclones.
