

WOODSIDE PLUTO LNG MODULAR HOUSING PROJECTS

Woodside Burrup Pty Ltd

Location

Karratha, Western Australia

Project Type

Housing Development

Project Value

Approximately \$40 million

Programme

April 2009 – August 2009

Services Provided

Full project management and superintendency services

Project Description

Coffey Projects were engaged by Woodside Burrup Pty Ltd to provide project management services including superintendency for the delivery of 54 modular houses in Karratha.

Three building contractors simultaneously delivered 26 homes of 3 bedroom / 2 bathroom, in addition to two group housing lots consisting of 28 homes of 2 bedroom / 2 bathroom.

The accommodation is for the clients and staff working on the Pluto LNG Plant. The client's project priorities were safety, delivery, cost and quality with particular emphasis on safety. Safety considerations included working in extremely hot conditions in an area prone to cyclones.
